

Amendments to the Claims:

This listing will replace all prior versions, and listings, of the claims in the application.

Please cancel Claims 2 and 4, without prejudice or disclaimer.

Listing of Claims:

1. (currently amended) In an audio mixer of the type including multiple controls, the improvement comprising a trackball which can rotate with at least two degrees of freedom thereby controlling [[two]] first and second variables;

wherein said first variable is speed of an audio effect and is controlled by rotation of said trackball about a first axis and wherein said second variable is regeneration of an audio effect and is controlled by rotation of said trackball about a second axis.

Claim 2 – (canceled)

3. (currently amended) The improvement of Claim [[2]] 1 wherein said first axis is perpendicular to said second axis.

Claim 4 – (canceled)

5. (currently amended) The improvement of Claim [[4]] 3 further including a selector switch for selecting the audio effect to be used.

6. (original) The improvement of Claim 5 further including a channel selector for selecting an audio channel for the audio effect.

7. (original) The improvement of Claim 6 further including a potentiometer to assign the level of the audio effect to be used.

8. (original) The improvement of Claim 7 further including an ON/OFF switch for the audio effect to be used.
